

Closure of the tunnel is necessary in order to test the automated tunnel management system (SCADA) in the Rikoti road tunnel located at km 143 of Tbilisi-Senaki-Leselidze (border of the Russian Federation) international road. As a result of which, traffic will be forbidden in the tunnel for all types of vehicles on March 28, 2018, from 00:01 am to 07:00 am and traffic flow will be diverted to the bypass road of Rikoti tunnel.

Service of towing mechanisms will be provided at two different locations on the bypass road of Rikoti tunnel.

Traffic closure in the Rikoti road tunnel and diversion of traffic on the bypass road of the tunnel will be carried out according to an attached organization scheme of temporary traffic.
