

Due to intense snow and high temperatures, there is avalanche hazard on Gudauri (Posta)-Kobi section of Mtskheta-Stepantsminda-Larsi (RF border) international road, - National Environmental Agency reports. Accordingly, traffic is restricted for all mode of transport on the above-mentioned section.

Based on information of the National Environmental Agency, traffic on Mleta-Kobi sections will be carried out in non-stop mode and only passing through the avalanche protective tunnels on Gudauri (Posta) -Kobi section.

Traffic on a km134-km135 (Dariali gorge) section of the same road shall be carried out in non-stop mode.

This traffic mode will be carried out under direct supervision and coordination of the Patrol Police.
