

Upgrading the automated system of tunnel management (SCADA) is ongoing in the Rikori road tunnel located at km 143 of Tbilisi-Senaki-Leselidze (border of the Russian Federation) international road. As a result of which, traffic is forbidden for all types of vehicles in the tunnel on February 26, 2018, from 00:01 am to 07:00 am and traffic flow is diverted to the bypass road of Rikoti road tunnel.

Traffic flow will be carried out on the bypass road of Rikoti road tunnel.

During this period of time, towing devices would be provided in shifts at two different locations of Rikoti tunnel bypass road.

Closing of Rikotti tunnel and diversion of traffic flow to the tunnel bypass road will be carried out in compliance with the attached organization scheme of temporary traffic.
