Management's responsibility for the special purpose project financial statements

Management is responsible for the preparation and fair presentation of these special purpose project financial statements in accordance with the basis of accounting described in Note 2. This includes determining that the IPSAS – Cash Basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances, and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the special purpose project financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the special purpose project financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the special purpose project financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Project's preparation and fair presentation of the special purpose project financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Project's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the special purpose project financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
